

OLANIER Guillaume

Mobile : 06 80 46 71 38
Email : golanier@gmail.com
Nationality: French
Date of Birth: 05/01/1970
Marital status: Married, 2 children.

Competences

Teamwork
Flexibility – irregular rotations
Highly adaptable to new partner at work
Act as a mentor for trainee
Ability to work in harsh environment.
Pro-active in case of failure or damage to equipment
Highly committed to the job
Observe safety precautions in the working environment.
Observe contractual, environmental and safety requirement.
Ability to analyses data sheets and manufacturer documents to justify operating characteristic of mechanical, hydraulic and air HP component
Manage stocks and spare parts for preventive and corrective maintenance.

Professional Experience

- February 2023- Crane supervisor Ponticelli**
Monitoring of the AKPO FPSO cranes, NOV 25 ton crane and Hydramarine 13-ton crane for proper delivery.
Supervisor on North platform in Congo.
Refurbish MAPPE crane and load testing for 5 years visit.
5 years visit on Konecranes.
- August 2022- December 2022 Mechanical and hydraulic supervisor Reel Imeca Alima and Nkossa project**
Technical assistance for the recommissioning of a 262-ton RPS winch, for a line pull on the Alima platform.
Monitoring of the anchoring system for a compliant handover for the change of Nkossa platform chains
- March 2022 - July 2022 Mechanical and hydraulic supervisor ITP interpipe project AGOGO**
Supervise the production line of ITP machines.
Manage maintenance of ITP machines during production.
Assist with ITP machine use and ITP vacuum pump operation/use.
- October 2021- December 2021 Mechanical and hydraulic technician BOPP**
Mechanical modification of the mechanical and hydraulic safety system.
Annual and five-year visit.
- August 2021- October 2021 Mechanical and hydraulic technician NOV project SEAEAGLE**
20-ton crane reassembly
- May 2021- June 2021 Mechanical and hydraulic technician Technipfmc project**

DEEP BLUE

Execution of preventive and corrective maintenance tasks

January 2021 - February 2021 Mechanical and hydraulic Technician Bopp

Update on Davit, five years visit.

November 2020- December 2020 Mechanical Technician and hydraulic Reel Imeca project CLOV

Carrying out maintenance tasks for a riser pulling system winch of 150-ton, back into service, for pulling umbilical

September 2020- October 2020 Mechanical Technician GE power conversion

Carrying out maintenance tasks on the generator bearings:

- Checking the condition of the bearings.
- Change of lubrication hoses.

Control of correct operation.

November 2019- August 2020 Hydraulic and Mechanical Supervisor Actemium project TLP MOHO NORTH

My daily duties concern preventive and corrective maintenance:

- Production and drilling tensioners MHD
- Skidding system BOP cage
- Cylinder, cassette and rollers MHD
- Winch 80t with hydraulic power unit Imenco

April 2019 – July 2019 Hydraulic and Mechanical Technician at SMP

Technical assistance during drilling operation. My daily duties concern preventive and corrective maintenance on land rig:

- Refurbish choke manifold
- Rig power supply:
 - Caterpillar 3512C / Kato 6P6-3300
 - Catterpillar C15
- Mud pump:
 - Lewco WH 1312
- Shale shakers:
 - Mi swaco MD-3
- Top drive winch system.
- Automatic catwalk system.
- Compressor and Quincy air dryer.

July 2018- November 2018 Hydraulic and Mechanical Technician at NFM

Technical assistance during commissioning of 320T mooring winch on Kaombo south project:

- Assist the control engineer to adjust the winch for different uses, translation of the winch, rotation at
 - different speeds, control of safety braking systems.
 - Tested all functions.
 - Maintenance preventive and curative.
 - Check spares.
 - Preparation for transit.

January 2016 – April 2018 SKANDI BUZIOS

Hydraulic supervisor at TECHNIP project

Working on fixed rotation of 6 weeks on / 6 weeks off Hydraulic supervisor on the TLS HUISMAN 650t. My daily duties concern preventive and corrective maintenance on flexible lay equipment.

- Managed team of 4 technicians (2 mechanic and 2 electricians).
- Ordered spares and consumables.
- Organized hydraulic modification.
- Organized maintenance during quayside time.

January 2001 – December 2015 **Hydraulic and Mechanical Technician at TECHNIP project DEEP BLUE**

Working on fixed rotations of 6 weeks on / 6 weeks off as a Mechanical and Hydraulic technician on board the Deep Blue vessel operated by Technip. My daily duties concern preventive and corrective maintenance on the winches, cranes and pipelay equipment.

Some of the equipment I am working on includes:

- Hydraulic system powered by secondary unit
- Rigid and Flexible pipeline installation system, 2* 4 quad tracks HUISMAN 500t.
- Air and Hydraulic Capstan of 5Te, 20Te and 50Te capacities
- Hydraulic winches of 360Te (traction winch) and 150Te capacity.
- Cranes KENZ 400T and NORLIFT 25t and 12t
- EFFER cranes 6t and 3t
- Pipe Follower of 550 Te capacity.

March 2000 – Decembre 2000 **Maintenance Technician at SDMO**

Maintenance technician for a small generator

September 1991 – March 1999 **Mechanical Technician in French Navy**

I was a supervisor engineer in charge of the preventive and corrective maintenance of the fresh and production system of air supply to the compartment of a submarine type Agosta.

I worked on:

- Group diesel generator Pielstick 16 Pa 4850kW
- Hydraulic system with a capacity of 27 l/min at 250 bar
- High pressure Air Compressor with a capacity of 240 l/h at 250 bar
- Air conditioning system with a capacity of 2700 frigorie/h
- Centrifugal and volumetric pumps

I was responsible of operating the diesel at sea as well.

Education

2007-2008 Training hydraulic stationary IFC Level 1 (Technology and symbolization)

2002-2002 Training hydraulic operation of installation in subunit

1999-2000 Technician Level IV at AFPA

Trainings

OPITO	2021
Chemical risk level 1	2019

Languages / Skills

French	Native
English	Technical
Portuguese	School/ Technical
