ABOUT ME

To get associated with a progressive organization, sharpen my technical skills and make myself a better person to fit into an organization and achieve my personal goals along with the organization's goals. I'm an adaptable and innovative person with all over 16 years of experience in hydraulics, Automobile repair and Maintenance. 12 years of Oversea experience in countries like Cameroon, Liberia and Ivory Coast as service shop and field managerial skills. Trained for Heavy construction equipment and Volvo construction equipment. I'm looking to develop my expertise in new concepts with development and validation within forward-thinking companies.
